

VAN DER VALK
HOTEL ARA

CSR statement Van der Valk Hotel ARA

We are aware of the impact our company has on the environment and society, and recognize our responsibility to do business in a way that preserves the natural environment for future generations. We operationalize this aspiration by continuously and increasingly integrating sustainable practices in our processes, products, and services.

Throughout this ongoing process we have already committed to the following measures:

- We actively contribute to the development of our knowledge about our profession and we support people who want to learn more about this profession.
- All guests and suppliers are informed about our Corporate Social Responsibility activities.
- We have made transparent arrangements with our guests and suppliers to maintain the quality and sustainability of our products and services.
- We assess our social impact with regard to our services and products and we reduce them as much as possible as far as it concerns negative impact, such as corruption, harassment, exploitation and child abuse.
- We monitor both the continuity of our company as the employer and provide necessary actions in case our company needs to deal with loss of income.
- We contribute to several charity foundations in different ways, for example by gifts, sponsorships or voluntary work.
- We continuously work on reducing the impact of our carbon footprint and increasing the sustainable character of our company.
- We regularly improve our purchase process and we are focused on buying sustainable products and services, preferably recognized by a sustainable ecolabel.
